Mine Record Entry

Mine Record Entry Detail

This Mine Record Entry is provided to the SSE s.73 Irrelevant info to acknowledge the Directive pursuant to section 170 of the CMSHA 1999, given 11/05/2021 has been met.

The areas quarantined by the Directive were:

- The inner walkway of shields 97 to 103 and
- Inner walkway of 137 to 148 shield.

Restricted access to these areas is removed effective immediately upon this MRE received by the SSE.

An inspection of the area was undertaken 18/05/2021 with external experts under the supervision of Mines Inspectors. Following this inspection the SSE was provided access to the quarantined zones to undertake sampling of particulate for analysis. The results provided to the Inspectorate of this analysis has not identified any evidence of Polycyclic Aromatic Hydrocarbons (PAHs).

Paul Brown
Inspector of Mines
